## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species, from each of the four groups of species, of the claimed invention:

#### **Valve prosthesis**

Species A: Figure 1

Species B: Figure 3

Species C: Figure 7

Species D: Figure 12

Species E: Figure 15

Species F: Figure 17

Species G: Figure 18

Species H: Figure 19

Species I: Figure 20

Species J: Figure 21

Species K: Figure 30

Species L: Figure 31

Species M: Figure 32

Species N: Figures 35, 36

Species O: Figures 38, 39

Species P: Figure 42

Species Q: Figure 44

Art Unit: 3738

Species R: Figure 47

Species SR: Figures 48, 49

**Material of support frame**

Species A: Wire (Figure 1)

Species B: Sheet of material (Figure 41)

**Corners of support frame**

Species A: Figure 5

Species B: Figure 9

Species C: Figure 10

Species D: Figure 11

**Attachment of biomaterial to itself**

Species A: Cross-linking agent

Species B: Adhesive

Species C: Heat source (e.g., welding)

Species D: Pressure (e.g., crimping)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, from each of the four groups of species, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3738

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
